## CONDITIONS OF SALE.

---

- I. The highest bidder to be the buyer ; and if any dispute arise between bidders, the lot so disputed shall be immediately put up again, provided the auctioneer cannot decide the said dispute.
- II. No person to advance less than 1s. ; above five pounds, 2s. 6d., and so on in proportion.
- III. In the case of lots upon which there is a reserve, the auctioneer shall have the right to bid on behalf of the seller.
- IV. The purchasers to give in their names and places of abode, and to pay down 5s. in the pound, if required, in part payment of the purchase-money ; in default of which the lot or lots purchased to be immediately put up again and re-sold.
- V. The sale of any lot is not to be set aside on account of any error in the enumeration of the numbers stated, or errors of description.
- VI. The lots to be taken away, at the buyer's expense, immediately after the conclusion of the sale ; in default of which Messrs. SOTHEY, WILKINSON & HODGE will not hold themselves responsible if lost, stolen, damaged, or otherwise destroyed, but they will be left at the sole risk of the purchaser. If, at the expiration of Two Days after the conclusion of the sale, the lots are not cleared or paid for, they will then be catalogued for immediate sale, and the expense, the same as if re-sold, will be added to the amount at which they were bought. Messrs. SOTHEY, WILKINSON & HODGE will have the option of re-selling the lots uncleared, either by public or private sale, without any notice being given to the defaulter.
- VII. Upon failure of complying with the above conditions, the money required and deposited in part of payment shall be forfeited, *and if any loss is sustained in the re-selling of such lots as are not cleared or paid for, all charges on such re-sale shall be made good by the defaulters at this sale.*

## INTRODUCTION.

---

THIS Catalogue contains a description of the second and final portion of the extensive collection of Greek Coins formed by the late Sir Edward Bunbury. It comprises the various issues of Asia Minor, Africa and the adjacent Islands.

Though this series may not include such fine artistic coins as were to be found in the first portion of the Collection, yet it is none the less remarkable. In some districts of Asia Minor such as Caria, Lydia, Phrygia, Pisidia and Cilicia, the coinage was principally of copper; but even amongst these are very many coins, which are equally as interesting to numismatists as those of the finer metals. As regards completeness this part of the collection is quite equal to the previous one. The series, however, which above all others calls for special notice is that of the Seleucid Kings of Syria. We may safely remark that never before has so fine a series of these coins, both in extent and for condition, been brought together by a private collector. In this respect it can well be compared with those of the Kings of Macedon and of Athens, which formed part of the previous sale.

It is well known that Sir Edward Bunbury in his classification of the coins of the Seleucidæ was not quite *en accord* with other numismatists both of the past and of the present time. In an article which he contributed to the Numismatic Chronicle (Third Series, vol. XIII, pp. 65-107) Sir Edward Bunbury explained the principal points, on which he differed from other writers on the subject. The difference of opinion was chiefly in the attribution of certain coins to Antiochus III, which had been previously given to his predecessor Antiochus Hierax, and in the classification of the coins generally of the former. It would be quite out of place here to go into any detailed account of Sir Edward's views, beyond stating that he divided the coins of Antiochus III into

five principal classes according to the portrait of the King, which in his opinion marked the various issues of the chief districts of his extensive dominions. This classification under classes has therefore been adopted in describing these coins in this catalogue. The other parts of the collection will be found to contain a number of very remarkable coins in gold and silver ; and as it would far exceed our limits to enumerate even a small portion of them, we think it better merely to call attention to the seven autotype plates appended to this catalogue, where a selection of the chief rarities are illustrated.

## ANTIOCHUS III, THE GREAT.

B.C. 222-187.

- 5 15 . 466 Tetradrachm, *Class I*, Head of Antiochus III to right, diademed, slight whisker; *rev.* ΒΑΣΙΛΕΥΣ ANTIOXOY, Apollo naked, but for drapery over right leg, seated to left on omphalos; arrow in right hand, bow in left; in field on left, monograms of PW and ΞΥ, *wt.* 261 *grs.* (*figured in Num. Chron. 1883, pl. v, 3*), *fine and rare* [Pl. IV] 1

\* \* \* Sir Edward Bunbury divided the coinage of Antiochus the Great into five principal classes according to the portrait of the King, which, in his opinion, marked the various issues of the chief districts of his extensive dominions. This classification, which Sir Edward Bunbury published and illustrated in the *Num. Chron.* 1883, *pp.* 86-94, has been adopted in the present instance. *Class I* Sir Edward Bunbury considered to belong to the first coinage of this reign.

- 1 15 . 467 Tetradrachm, *Class I*, similar to the preceding coin, but on *rev.* on left, one monogram, ΞΥ only, *wt.* 262 *grs.* (*figured in Num. Chron. 1883, pl. v, 1*), *well preserved and rare* 1
